## EXPERIENCE

### CLUMOSS, FULLSTACK SOFTWARE DEVELOPER

Nov 2023 - Present

- Leveraged **React.js** in conjunction with **CSS/Bootstrap** to craft visually appealing and **responsive websites** with seamless user experiences.
- Conducted thorough **testing** using tools such as **Jest, React Testing Library** for robust and reliable code quality.
- Designed and developed two functional websites, showcasing proficiency in front-end technologies.
- Utilized **Git version control** seamlessly for efficient project development and collaborative code management.
- Utilized **AWS** for hosting, implementing scalable and reliable infrastructure to ensure optimal website performance and availability.

### HEARING HOPE, FULLSTACK WEB DEVELOPER

Jan 2024 - Jan 2024

[www.hearinghope.in](http://www.hearinghope.in)

- Designed and developed a dynamic and **responsive website** using **Next.js**, delivering a modern and user-friendly interface to enhance user experience.
- Conducted thorough **testing** using tools such as **React Testing Library** for reliable code quality.
- Employed Next.js components to create a modular and maintainable codebase, optimizing the website's performance and facilitating future **scalability**.
- Integrated third-party **APIs** to enhance website functionality, demonstrating adaptability and used **CPanel** for hosting the application on the domain.
- Utilized **Git version control** seamlessly for efficient project development.

## EDUCATION

**BTech in Computer Science**, Guru Gobind Singh Indraprastha University | Delhi, India

2022 - 26

**Achievements:** Winner @ HackNSUT'23, HackAvenue | Finalist @ Hustle X (Business Incubator, IIM Lucknow) | Finalist @ Vihaan 6.0 (DTU) | @ Code4Caue (Mentor, MSIT)

**Courses:** MERN Stack | Advanced Python | Working with Flask

## SKILLS

**Programming:** C/C++(DSA), Python, Git, JavaScript, Html, CSS

**Technologies/Tools:** MongoDB, Express.js, React.js, Next.js, Node.js, Firebase, Flask, SQL, Bootstrap, APIs, CPanel

## PROJECTS

### Trendify -

Nov 2023 - Nov 2023

Ecommerce Website for Clothing

- Designed and implemented a secure **cart system** with dynamic updates, leveraging **MERN stack** technologies for efficient **front-end and back-end** communication.
- Utilized **React.js** components within the MERN stack to create a modular and maintainable front-end codebase, optimizing website performance.
- Integrating **Firebase** for user **authentication** and ensuring compliance with privacy standards.
- Integrated a secure **payment gateway**, seamlessly combining **MongoDB, Express.js, React.js**, and **Node.js**, with Firebase ensuring robust user authentication. This supported multiple payment methods and enhanced online transaction convenience.

### Real Time Chat Application -

Dec 2023 - Dec 2023

- Utilized **Firebase** for secure and convenient **Google authentication**, enhancing user account management.
- Integrated **Cloud Firestore** for efficient data storage and **real-time synchronization**, contributing to the application's robust and scalable architecture.
- Successfully delivered a **responsive** chat application, optimizing the user interface for a variety of devices using **React.js** and **CSS**.

### Task Management Application -

Nov 2023 - Dec 2023

- Developed a user-friendly Application with a focus on intuitive **task editing, deletion**, and **priority assignment**.
- Implemented **local storage** persistence, ensuring a seamless user experience with task **data retention**.
- Included **pagination** and **due dates**, to enhance the application's functionality and user experience.
- Delivered a responsive task application, visually appealing user interface for a variety of devices using **React.js** and **CSS**.
